

O.R. Camera Cover

Intended Use

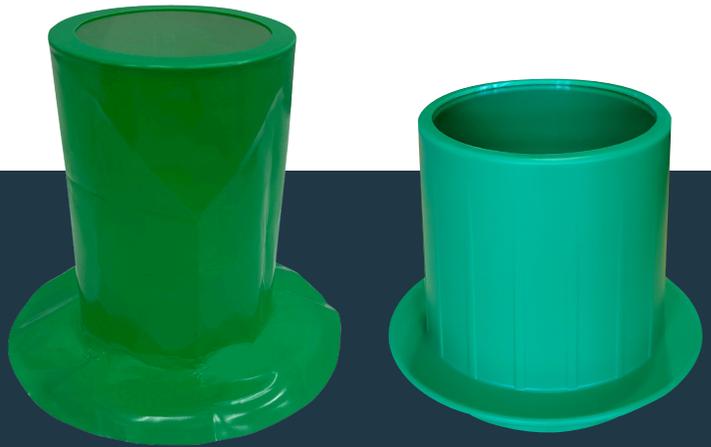

Intended to provide a sterile interface between the operating room camera (non-sterile) and the Surgeon or Nurse (sterile).

Key Features

- Two systems offered for convenience: Rigid or Flexible Covers
- Clear lens provides complete visualization of surgical field
- No distortion of image through lens
- Ultra-durable clear lens to mitigate breakage during surgery
- Helps save time and money associated with sterilizing reusable camera covers
- Helps enable quicker O.R. turnaround times
- Adaptors currently available for many common O.R. cameras
- Sterile, intended for single use, and not made with natural rubber latex
- Please contact your local Aspen Surgical representative for further adaptor information

O.R. Camera Cover

Providing a sterile interface between the non-sterile operating room camera and sterile nurse or surgeon.
