The *Ultimate* Surgical Stapling Range

FROM THE UK'S LEADING MANUFACTURER OF LAPAROSCOPIC INSTRUMENTS AND DEVICES

The *Ultimate Reloadable* Linear Cutter Stapler

The Purple Surgical **Ultimate** Reloadable Linear Cutter Stapler places two double staggered rows of titanium staples and simultaneously cuts and divides tissue between the two double rows.

Anatomy suitable for this device includes:

General Surgery - Stomach | Small Intestine | Pancreas | Colon

Urologic Surgery - Ileal Conduit

Thoracic Surgery - Parenchyma, Main and Lobar Bronchi

The device is available in 60mm, 80mm and 100mm staple lengths. Reloading Units are available for both standard tissue (3.8mm) and thick tissue (4.8mm)

The *Ultimate Reloadable Linear Stapler with Indicator*

Colour-coded indication window allows for simple prevention of mis-firing

Anatomy suitable for this device includes:

General Surgery - Oesophagus | Stomach | Small Intestine | Colon | Pylorus
Thoracic Surgery - Parenchyma | Bronchus

Why choose the **Ultimate Reloadable Linear Stapler with Indicator**:

- + Colour-coded indication window allows for simple prevention of mis-firing
- + Retaining pin can either be manually or mechanically engaged
- + Cutting guide enhances safety during transection

The device is available in 4 size options: 30mm, 45mm, 60mm and 90mm staple line lengths. Reloading Units are available for both standard tissue (3.5mm) and thick tissue (4.8mm)

The Ultimate Circular Stapler with Dual Safety

Teflon cutting washer allows for audible and tactile feedback

The Purple Surgical **Ultimate** Circular Stapler with Dual Safety places a circular staggered double row of titanium staples and resects excess tissue to create a circular anastomosis.

Anatomy suitable for this device includes:

General Surgery - Oesophagus | Stomach | Small Intestine | Colon | Rectum

Why choose the *Ultimate* Circular Stapler with Dual Safety:

- + Teflon cutting washer allows for audible and tactile feedback
- + Staple formation creates the perfect 'B' shape staple when the red line is positioned centrally within the green firing indicator window
- + The ergonomic design and textured firing handle facilitates user comfort and control
- + Dual safety lock-out mechanism prevents misfiring
- + Fin shaped wing nut for easy counting of full or half turns

The device is available in 5 size options identified by colour coded anvil washers. 3 open staple heights and variable closed staple heights are available for optimal tissue thickness matching

The **Ultimate** Circular Stapler with Dual Safety

PRODUCT	CODE	COLOUR	LUMEN	SHAFT LENGTH	OPEN STAPLE HEIGHT	CLOSED STAPLE HEIGHT	QTY

Ultimate 34mm Circular Stapler with Dual Safety	PS9CS34S	Purple	24.5mm	18.5cm	5.0mm	2.2mm	3 / Box

The Ultimate Circular Stapler with Dual Safety & Tilt Top Anvil

The vented, low profile Tilt Top Anvil releases vacuum and minimises the potential of tissue trauma on removal.

The Purple Surgical **Ultimate** Circular Stapler with Dual Safety & Tilt Top Anvil places a circular staggered, double row of titanium staples in the tissue and resects excess tissue to create a circular anastomosis.

Anatomy suitable for this device includes:

General Surgery - Oesophagus | Stomach | Duodenum | Colon | Rectum

Why choose the *Ultimate* Circular Stapler with Dual Safety & Tilt Top Anvil:

- + Teflon cutting washer allows for audible and tactile feedback
- + Vented, low profile tilt top anvil releases vacuum and minimises the potential of tissue trauma on insertion and removal
- + Staple formation creates the perfect 'B' shaped staple when the red line is positioned centrally within the green firing indicator window
- + The ergonomic design and textured firing handle facilitates user comfort and control
- + Dual safety lock-out mechanism prevents misfiring
- + Angled wing nut allows for easy counting of full and half turns

The device is available in 4 sizes, identified by colour-coded anvil washers, with 3 staple sizes available to provide optimal tissue thickness matching.

The Ultimate Haemorrhoidal Circular Stapler with Dual Safety & Transparent Cartridge

The transparent cartridge gives direct visualisation of the tissue within.

The Purple Surgical **Ultimate** Haemorrhoidal Circular Stapler with Dual Safety & Transparent Cartridge places a circular staggered, double row of titanium staples in the tissue and resects excess tissue.

The device is designed for use in the surgical treatment of haemorrhoidal disease.

Staple formation creates the perfect 'B' shaped staple when the red line is positioned centrally within the green firing indicator window. Fixed anvil eliminates the risk of detachment from the cartridge.

Why choose the **Ultimate** Haemorrhoidal Circular Stapler:

- + Transparent cartridge for direct visualisation of the tissue
- + Fixed anvil eliminates the risk of detachment from the cartridge
- + 4 suture threading ports for even selection of prolapsed mucosa
- + Dual safety lock-out mechanism prevents misfiring
- + Incremental markings to clearly measure distance from the dentate line

The device is available in two size options; 32/33mm and 33/34mm and supplied with 5 accessories

Clear Circular
Anal Dilator

The Ultimate Endoscopic Linear Cutter Staplers with universal handle

SIZE OF RELOAD UNIT	NO. OF SQUEEZES REQUIRED
30mm	2
45mm	3
60mm	4

The Purple Surgical *Ultimate* Endoscopic Linear Cutter Stapler places two, triple-staggered rows of titanium staples and simultaneously cuts and divides the tissue between the two rows. The Universal Handle is available in 3 shaft lengths; 6cm, 16cm and 26cm accommodating 30mm, 45mm and 60mm articulating reloading units.

Why choose the *Ultimate* Endoscopic Linear Cutter Stapler:

- + The Universal Handle is available in three size options and compatible with all Purple Surgical reloading units
- + Improved gripping technology to minimise longitudinal and lateral tissue spread

The *Ultimate* 10mm M/L Single-Use Clip Applier

Ultimate Quality
Ultimate Performance
Incredible Value

The Purple Surgical *Ultimate* Clip Applier has been designed to ensure maximum clip retention following ideal visualisation during approximation and smooth device activation.

Why choose the *Ultimate* Clip Applier:

- + Smooth, sequenced distal tip to clip apex closure, ensures tissue is guided to the apex of the U shaped clip
- + Audible two-step firing action prevents inadvertent / premature clip firing
- + Large jaw maximises clip aperture, tissue clearance and excellent visualisation before activation
- + Super-strength flexible titanium minimises unwanted clip breakages
- + Opposing axial and lateral clip grooves minimise tissue migration and maximise retention
- + Safety lock prevents empty jaw from inadvertently closing on tissue

The *Ultimate* 10mm M/L Single-Use Clip Applier

The *Essential* Skin Stapler

The device is simple, quick and easy to use to facilitate- maximum control and continual performance.

Why choose the *Essential* Skin Stapler:

- + Single use, 35 Wide
- + Creates the perfect staple formation for effective wound closure
- + Clear visibility for easy identification of remaining staples
- + Available with 35 wide pre loaded staples
